

SETEC Elevators Expands Services and Launches New Website

August 7, 2006 – SETEC Elevators, www.SetecElevators.com, a Texas independent elevator contractor, usually known for its expertise in the consulting arena, is making a name for itself by expanding to a full-service elevator organization, which includes modernizations, commercial and residential installations, service and repairs, QEI inspections, training, legal consulting, and contract services. Along with all of these changes, SETEC Elevators is launching a new website (www.seteelevators.com). Here visitors can learn about all of SETEC's services, read current testimonials and press releases, and access links to cutting-edge industry technology and up to date elevator safety information.
