

SETEC Elevators Pumps Up the Volume Elevator Sales

Waupaca Elevator Recognizes SETEC Elevators as A Preferred High-Volume Distributor!

Home elevator sales are up for local full-service elevator company, SETEC Elevators. So much so, that they have earned recognition as a "High Volume Distributor" with yet another home elevator manufacturer, Waupaca Elevator.

In past years home elevators only comprised a small niche within industry sales with the primary consumer being the high-end home owner facing accessibility issues due to physical limitations. Today, the home elevator market has expanded significantly to include mid-size home owners as well as buyer who have an interest in elevators as a lifestyle choice not as a necessity. These new clients are often installing elevators for convenience, or to raise the future resale value, or even just for the novelty of being the first on the block with the latest gadget.

As a result of this growing market, SETEC Elevators has expanded its product offering to include a full-line of residential elevators, dumbwaiters, chairlifts, stair lifts, and platform lifts. To that end, SETEC has established strategic partnerships with the top elevator manufacturers in the United States and Canada. These partnerships allow SETEC to provide clients with more variety and side-by-side comparisons not available with many other elevator contractors who only represent a single manufacturer's product line.

Home owners and builders alike can now contact one local source for all their lift needs.

This allows clients the opportunity to choose between several popular drive systems, feature preferences, and product specifications and minimum requirements to identify the units which fits their personal preferences, space limitations, and lifestyle.

When you need a lift, you need the elevator experts at SETEC Elevators. We can offer you options, explain the differences, and help you get the best value on your new home addition.

About SETEC Elevators

About Waupaca Elevator:

In 1957, Waupaca Elevator Company, Inc., built its first elevators and dumbwaiters in Waupaca, Wisconsin with a staff of 6 employees. Demand grew, and in 1998 the company moved to a larger facility in Appleton, Wisconsin. After only four years, the company's continued growth created the opportunity to move to its current location which has room for future expansion. Today, Waupaca Elevator employs over 70 employees who produce beautiful residential elevators and dumbwaiters. www.WaupacaElevator.com
